- COSTUME CREATION.
- ALREADY BROKEN IN (PREVIOUS LIVING)
- LESS FUSS.
- EXCITEMENT OF THE HUNT.
- DONATIONS TO CHARITY.
- UNIQUE FINDS.

THE FACTS.

85% OF RECYCLABLE CLOTHES ARE NEEDLESSLY TOSSED

AVERAGE OF 7 KILOGRAMS OF TEXTILE WASTE PER PERSON IN LANDFILLS ACROSS CANADA

COMPRESS THE TEXTILES THROWN AWAY YEARLY and you could fill a solid structure as wide and tall as the SKYDOME ~ 3 TIMES

MAN-MADE FIBRES WILL NOT DECOMPOSE, and while WOOLLEN PRODUCTS WILL, they PRODUCE METHANE GAS WHICH CAUSES GLOBAL WARMING

ON AVERAGE, 80% OF TEXTILES THROWN AWAY STILL HAVE 75% OF THEIR WEARABILITY LEFT

IF EVERYONE IN CANADA BOUGHT ONE RECLAIMED WOOLLEN GARMENT EACH YEAR, 300 MILLION GALLONS OF WATER & 400 TONNES OF CHEMICAL DYES WOULD BE SAVED
